Valuation Days

We conduct special valuation days at venues all around the UK. No appointment is necessary at such events, and valuations are provided free of charge. We look forward to meeting all our customers in person, and hope to see you soon. We are always keen to consign goods to auction, or to make cash purchases.

Many events will be scheduled throughout the year. Up-to-date details of events are on our website www.lockdales.com

Valuations are available at our Martlesham premises, **please call first to make an appointment.** In the case of high value collections we are happy to send one of our representatives to visit you. We will travel overseas to collect your goods if you have guaranteed that you will consign to our auction, or will accept a purchase offer agreed prior to travel.

Returns Policy

Please inspect thoroughly all lots purchased upon collection or postal receipt. Returns can only be made within 7 days of receipt, with written explanation of the reasons why. Items can only be returned if significantly mis-described, or if proven to be inauthentic when sold as genuine. Bulk lots cannot be returned and thus we strongly advise viewing such lots in person. The nature of what constitutes a bulk lot is determined at Lockdales' discretion. Returned lots will only be accepted if returned in the same condition they were received in. We seek to stress by these terms: that the practices and etiquette of sale by auction are different from those relevant to sale by private treaty. Items in our auction are not sold "on approval". Bidders should be certain of the nature of each lot before bidding. We do not refund postal charges. ***We do not accept any returns on specifically German medals & militaria. These items are considered sold 'as seen' and should only be bought in full knowledge and acceptance of these terms.**

Originally recommended for the BEM, he was then awarded the MC, his citation reads 'In January 1942 this officer was in command of a Light A.A. Troop at Isola Point with guns sited round a vulnerable position near the Dockyard. For a long time the Troop was in the thick of the bombing and he could always be seen at one or other controlling or assisting in the firing of his guns. He imbued all ranks of his Troop with the aggressive spirit that was in him. In February of the same year this officer was entrusted with the maintenance of telephone communications of Light A.A. Regiment which included the Dockyard, Delimara and Kalafra in its area. Repairs to lines were necessary everyday throughout a prolonged period of intensive bombing and the work he was called upon to do was generally in the more vulnerable and dangerous positions. He was untiring in his work and never allowed bombing to interfere with him. It was entirely due to his efforts that the Commanding Officer could keep in touch with all his guns.' MC awarded 28/9/1942, Wounded In Action 22/7/1942. His MC Citation reads 'At first light on 22 July 1942 during the withdrawal from the vicinity of El Mreir Depression, this officer when approaching 21 NZ Bn Area engaged enemy tanks which were following up with the 2-pr gun on which he was travelling. At that time the only troops in the vicinity were two 6-prs and Lieut Stevens 2-pr. All three were engaging 8 to 10 enemy tanks which were advancing, one tank at least being not more than 500 yards from Lieut Stevens gun. Lieut Stevens, making excellent use of his ground sited his portee in defilade and destroyed an enemy tank which appeared to be leading the others, while the other two guns provided supporting fire. Lieut Stevens was previously wounded on a minefield, his spectacles were broken which very much impaired his sight, but he did not wish to be evacuated. His coolness in the face of such odds must have inspired the men under his command and the cooperation of all three guns plus others which joined them later stopped the advance of enemy tanks'. | £800 - £900 |

What are cookies?

Cookies are small text files which a website may put on your computer or mobile device when you first visit a site or page. The cookie will help the website to recognise your device on any further visit. Web beacons / Flash or other similar files can also do the same thing. The term "cookies" in this policy refers to all files that collect information in this way.

Certain cookies contain personal information – for example, if you click to "remember me" when logging in, a cookie will store your username or indeed allow a personal 'hello name' greeting for example.

Cookies may be either "session" cookies or "persistent" cookies. A session cookie, will expire at the end of the user session, when the web browser is closed.

A persistent cookie consists of a text file sent by a web server to a web browser, which will be stored by the browser and will remain valid until its set expiry date (they can however be deleted by the user before the expiry date).

Most cookies won't collect information that identifies you, and will instead collect more general information such as how a user arrives at and uses the websites, or a user's general location.

Generally, cookies perform up to four different functions:

1. Essential cookies
2. Performance Cookies
3. Functionality Cookies
4. Behaviourally Targeted Advertising Cookies
