Valuation Days

We conduct special valuation days at venues all around the UK. No appointment is necessary at such events, and valuations are provided free of charge. We look forward to meeting all our customers in person, and hope to see you soon. We are always keen to consign goods to auction, or to make cash purchases.

Many events will be scheduled throughout the year. Up-to-date details of events are on our website www.lockdales.com

Valuations are available at our Martlesham premises, **please call first to make an appointment.** In the case of high value collections we are happy to send one of our representatives to visit you. We will travel overseas to collect your goods if you have guaranteed that you will consign to our auction, or will accept a purchase offer agreed prior to travel.

Returns Policy

Please inspect thoroughly all lots purchased upon collection or postal receipt. Returns can only be made within 7 days of receipt, with written explanation of the reasons why. Items can only be returned if significantly mis-described, or if proven to be inauthentic when sold as genuine. Bulk lots cannot be returned and thus we strongly advise viewing such lots in person. The nature of what constitutes a bulk lot is determined at Lockdales' discretion. Returned lots will only be accepted if returned in the same condition they were received in. We seek to stress by these terms: that the practices and etiquette of sale by auction are different from those relevant to sale by private treaty. Items in our auction are not sold "on approval". Bidders should be certain of the nature of each lot before bidding. We do not refund postal charges. ***We do not accept any returns on specifically German medals & militaria. These items are considered sold 'as seen' and should only be bought in full knowledge and acceptance of these terms.**

98	<p>Airship casualty group - '1915 Star' Trio and Death Plaque to M.2687 Charles William Printer C.P.O. MECH RN (incorrect initial on Star). Born Westbury on Severn, Gloucestershire. Recommended for a commission as Technical Officer RNAS, Lost at Sea 22nd June 1918 owing to the Wreck of Airship NS.3 off East Fortune. An officer wrote "He was a very keen and clever engineer, and a very hard worker, never complaining even under the most trying circumstances. It was typical of him that he carried out the orders for the engines up to the last moment with extraordinary promptness, although in imminent danger, and thus probably reduced the loss of life". The lot includes much research including extracts from the book North Sea Three by Brian J Turpin "The engineers, although clinging frantically to the structure inside the power car, immediately answered on their telegraphs and reduced power. The helm was put hard over in an effort to bring the ship back into the wind, but before she could respond the stern struck the water at a speed of 70mph. The power car was ripped off by the force of the impact. It sank instantly with two engineers still inside'. With a superb Commemorative Scroll given by the Citizens of Gloucester. A Fine and Rare group. EF but plaque is stuck to card (4)</p>	£1700 - £1800

The family lived at Hadham Towers in Much Hadham, Herts). Doll was educated at Charterhouse (Scholar), Trinity Hall Cambridge (Scholar), Bonn, Friedburg, Geneva and Florence, and worked for N M Rothschild & Sons. Served WW1 and was MID, MSM, and awarded orders of St Anne and St Stanislas 3rd Class. Served Inter-allied Commission in Bulgaria 1925-30, British Delegate 1926-30, Pres 1926 and 1929, Financial Observer State of Parana Brazil 1930-33, negotiated for Metropolitan Vickers financial agreement with Govt of Brazil for electrification of Central Railway 1933-34, Financial Adviser Ministry Siam 1936-42 (Order of Crown of Siam 1st Class). Advisory Attaché Bank of England 1942-45, Financial Member of the De La Warr Mission to Ethiopia 1944, Currency Advisor to Lord Louis Mountbatten's Command. South East Asia 1945-46. Financial Advisor to Siamese Government 1946-51, Legion d'Honneur 1950. Died 1977. He had two brothers who fought during WW1, Lieut P W R Doll Machine Gun Officer 1st/8th Bn Liverpool Regt KIA 31/10/1914, and Capt M H C Doll 13th Hussars WIA. Doll was awarded his MSM for Valuable services in Russia ("E" Dover) L/G 3rd June 1918. CMG L/G 1st Jan 1943. Order of the Crown of Thailand Grand Cross L/G 10th Jan 1941. 2nd Lieut W A M Doll was originally attached to 1/9th Gurkha Rifles as an Interpreter in Sept 1914. He was later sent home by the C in C France in June 1915 as it was considered undesirable that he should remain with any unit in France as he was married to a German lady, and his feelings were influenced on that account. He arrived in England on the 9th June 1915. He was interviewed on the 17th June and was duly called upon to resign his commission. He appealed against this decision all the way to the King who was advised by Kitchener to deny the appeal. On the 3rd August 1915 an application for a temporary commission was submitted by the Mayor of Fulham, on the application it was stated that Mr Doll had resigned his former commission as he desired to join a combatant branch of the service. This statement was incorrect and the Mayor was informed. In Oct 1915 Mr Doll requested that his case be reconsidered, with a view to reinstatement, or as an alternative that he might be permitted to enlist. The case was carefully reconsidered, Lieut-Col Widdicombe the former C.O. being personally consulted, It was decided that Mr Doll could not be recommissioned but that no obstacle would be placed in his way if he wished to enlist. In Oct 1918 the G.O.C. in C. Northern Russia Expeditionary Force reported that a commission had been granted to Sergt W A M Doll. This NCO was Gazetted to a Temp Commission on the Special List as a 2/Lieut with effect from 16th Oct 1918 (L/G 7/1/1919). It was not known that Sergt Doll was the same former 2/Lieut of the same name. Doll was well respected by the G.O.C in C Archangel. Thomas Dawson Baker enlisted at Lincoln 25th April 1921 (born Caythorpe, Grantham). MBE L/G 28th June 1945. Served with 9th Field Regt RA. His MBE recommendation as follows 'At Bishenpur during May and June 1944, RSM Baker showed great devotion to duty, coolness and bravery under fire. His personal example and hard work, though himself tired out, ensured that an already fatigued Tac RHQ got themselves dug in before serious shelling started, and as a result no casualties were sustained from the constant and accurate shelling. His cheerfulness and complete obviousness to danger during this period was inspirational to all. On the SADDLE on the night 10/11 June when enemy over ran BASTON, a position only some 200 yds from Bde HQ, the remnants of the garrison came back in the darkness through the perimeter, RSM Baker by his coolness and courage under fire ensured that not only did RHQ stand firm in their sector and hold their fire, but that they also helped to steady troops on the remainder of the perimeter thus helping materially to restore a nasty situation.....!' With copy of Citation and Death Certificate (died in a traffic accident 25/7/1945, Syria. Buried Beirut War Cemetery). His recommendation reads 'During the fighting in the ANZIO Beach head, Sjt Bedborough has given a fine example of devotion to duty. This signal NCO personally carried the Control 18-Set throughout the attack on 30 Jan 1944. Despite intense enemy shelling and mortar fire, Sjt Bedborough never ceased trying to maintain touch with the forward Companies. The maintenance of contact with these Companies was of the greatest help in controlling the attack. For three days and nights after the attack Sjt Bedborough continually went forward to lay and repair lines to the most advanced positions. It was due to his efforts that Companies were seldom out of touch with Bn HQ, thus enabling important information to reach BN and Bde HQ as it occurred. During the attack on Buonriposo Ridge and subsequent days this Signal NCO repeatedly repaired lines under heavy fire. His coolness and determination were an inspiration to all with whom he came in contact and who were shown a fine example of disregard for personal safety. VF (6)

I think not, you would not produce a coin weight in lead for obvious reasons, loss of correct weight.
