Valuation Days

We conduct special valuation days at venues all around the UK. No appointment is necessary at such events, and valuations are provided free of charge. We look forward to meeting all our customers in person, and hope to see you soon. We are always keen to consign goods to auction, or to make cash purchases.

Many events will be scheduled throughout the year. Up-to-date details of events are on our website www.lockdales.com

Valuations are available at our Martlesham premises, **please call first to make an appointment.** In the case of high value collections we are happy to send one of our representatives to visit you. We will travel overseas to collect your goods if you have guaranteed that you will consign to our auction, or will accept a purchase offer agreed prior to travel.

Returns Policy

Please inspect thoroughly all lots purchased upon collection or postal receipt. Returns can only be made within 7 days of receipt, with written explanation of the reasons why. Items can only be returned if significantly mis-described, or if proven to be inauthentic when sold as genuine. Bulk lots cannot be returned and thus we strongly advise viewing such lots in person. The nature of what constitutes a bulk lot is determined at Lockdales' discretion. Returned lots will only be accepted if returned in the same condition they were received in. We seek to stress by these terms: that the practices and etiquette of sale by auction are different from those relevant to sale by private treaty. Items in our auction are not sold "on approval". Bidders should be certain of the nature of each lot before bidding. We do not refund postal charges. ***We do not accept any returns on specifically German medals & militaria. These items are considered sold 'as seen' and should only be bought in full knowledge and acceptance of these terms.**

The Peter James Mills Collection

I am often asked why I collect coins. Simple, I have always felt a magical thrill when holding a coin in my hands, knowing how much older it was than nearly everything else around me, thinking of the times and places it had been, the many other hands it passed through until it reached mine.

My first encounter with an old coin was an 1860 shilling that my mother had used to feed a gas meter in the 50's having already used up all the others she had. After pleading with the gas man she was able to get the shilling back, and this repeated itself often until both he and she would be joking about it each time he came. Naturally in those days it was not uncommon to get coins in your change that might be 50, 60 or even more years old. Since decimalization of course this has ceased, as have so many other cherished aspects of bygone times.

In 1968 my mother decided to take me to the bank with her to exchange some £1 notes for bags of hundreds of big pennies. She sincerely hoped to find the elusive 1933 penny in the last months before the good old penny disappeared from our pockets forever.

Needless to say, it didn't happen, but the fun we had did kick start my own life-long passion and the goal to collect all the coins that had been issued since Matthew Boulton introduced the Cartwheel. And although my dear old mum hung on to it for as long as she could, I did coax the 1860 shilling from her eventually!

Well, a life-long hobby comes to an end as I now decide to let others enjoy these rare and wondrous things of our past.
